Shower Head with Hose

Instruction
Manual

KEY FEATURES

- Automatic ignition, powered by 2 D-cell batteries
- Adjustable gas and water controls
- Compact, portable design with carry handle
- Burners activate with water flow / no standing pilot light
- 20-minute automatic safety shutoff timer
- Easy garden hose water hookup
- Outdoor-only operation
- Ideal low-to-moderate hot water supply for portable use

BENEFITS

- Instant hot water on demand
- Great for camping, cabins, RV support, outdoor showers, pet washing, cleanup stations, and emergency use
- Compact and lightweight for easy transport and storage
- Works with a standard 20 lb propane cylinder
- Simple setup and transport—hot water where you need it

SAFETY & WARNING

- Outdoor use only
- Use liquid propane only
- Do not use in enclosed spaces
- Leak-test gas connections with soapy water
- Drain unit after use in freezing conditions
